The fever is on . . .

From all over students come to the Baptist College. This is where they live, take part in activities, gather in groups, and find romance.

In Charleston or at a
basketball game there is
always excitement

Construction on the Baptist College campus is

a happening in that it is occurring everywhere

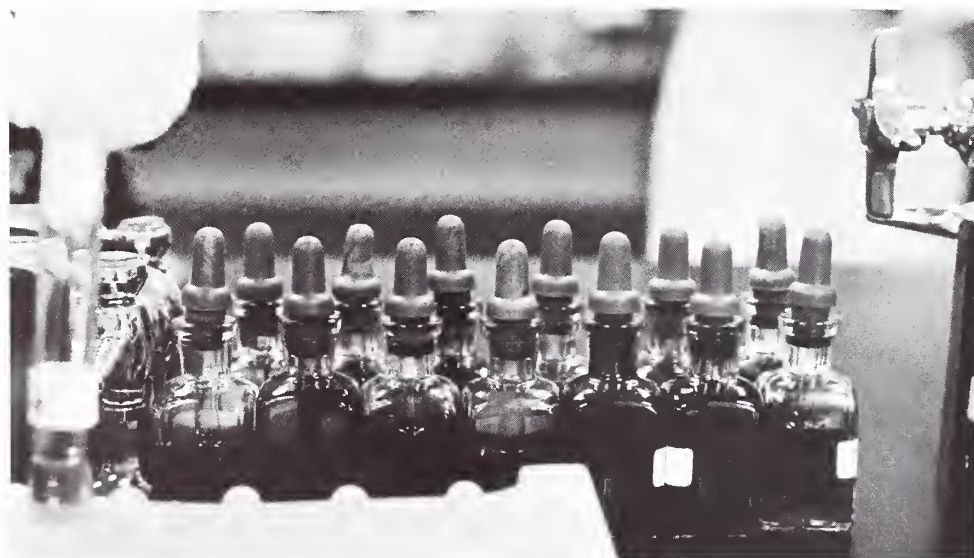

Christmas provides setting for President's Reception

Follow me to the Library!

Varied costumes are displayed for Halloween. Howard Hodges wins 1st prize for his costume. Mike Morris doesn't look like himself with Snoopy sitting on the pumpkin on Mike's head. Johnny McDaniel tries to climb the rope ladder while another student doesn't get to the ten dollar bill either. Bobby Benton seems to be the center of attraction.

Halloween causes quite a stir

Happenings, Impact of Brass . . .

Performing at their best The Happenings put B. C. in a concert mood with their finger snapping music. The Impact of Brass proves to be a great success playing their twelve brass instruments.

The Lettermen . . .

Stan Arazie, Phyllis Cummings, Susan Ramsey, Stan Sibley, and Lawrence Garris enjoy the coffee before the show.

Steve does his thing.

Steve Gillette entertains the students with folk songs of his own origin.

Steve Gillette, The Symbols . . .

Neil gets into the swing of things.

The Symbols once again thrill the audience.

The Symbols make their third grooving appearance on the campus.

Rat Court . . .

Going from the bottom left to top right Don Weldon gets his weekly bath from the rats, while Carola Fultz sprays a little shaving cream on her opponent. Amy Rutledge does not like June Peas it seems, neither does Debbie Baker care for raw eggs.

a necessary evil

Rat Week opens

A little water never hurt anybody.

Pam Watson helps rats to understand the proper procedure for "air raid".

with much success also many groans

Ronnie Mitchum entertains upper classmen.

Marilyn Burgett gives a little helpful shove.

Leaving from the Fort Sumter Hotel, the upper classmen and lowly rats enjoy the harbor cruise.

Craig Fields achieves success.

English courses involve students in many different activities. Advanced grammar students study verb-adverb combinations. George Rhodes and Percy Harvin concentrate on English 101. Sharing notes helps students understand the assignments. John Dryden is studied by Sophomore Lit. students. Handouts give invaluable aid to freshmen.

Correct English . . . a must for all students

RULES AND SUGGESTIONS FOR THEME WRITING,
BOOK REVIEWS, AND TEST PAPERS

Important words in a title must be capital letters.

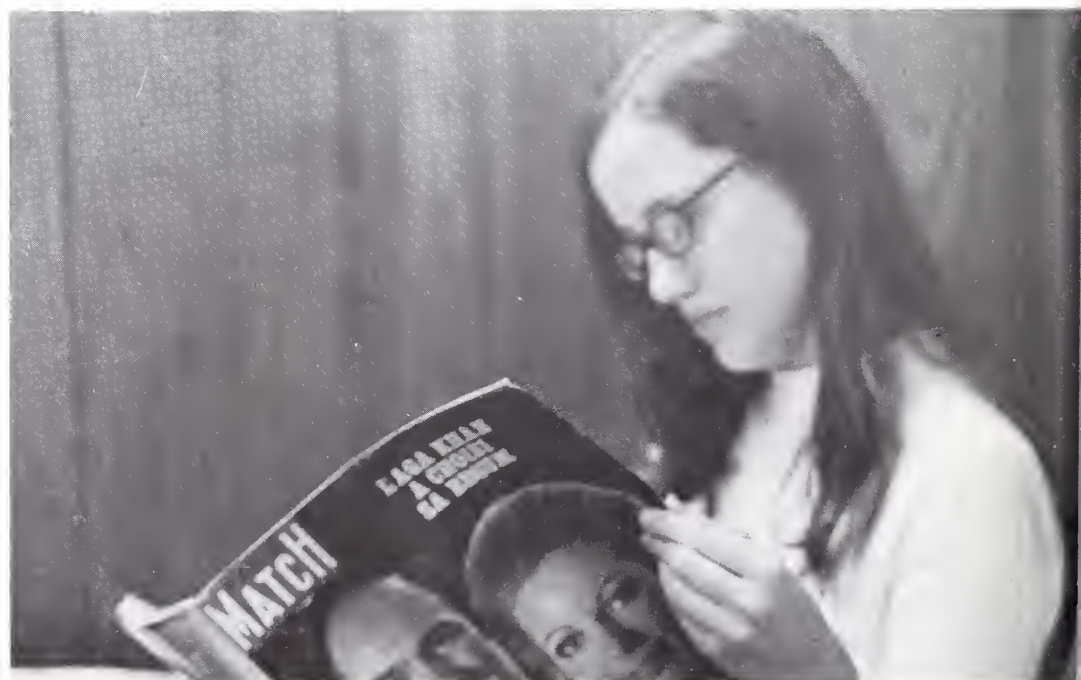

The title of a paper in the center of the page
before starting a theme.

Use quotation marks or italics around your title
if the title is the name of a play, a story,
or if the title is taken from a book.

Examples: 1. My English Notebook
2. Antigone
3. "Oh, World, Thou Art a
Better Part"

Margins, approximately an inch on each side
the bottom of a page.

Oui, Si, Ja—Foreign Languages

In the top left students find that lab work is required for all foreign language courses. Below that a student is reading a copy of the French magazine *PARIS MATCH*. Doing lab work is a lonely job in the above right. Below that picture a student is studying religion while listening to a French tape. French can be depressing—this is seen in the picture to the right.

Rhythm, beat, tempo—elements in music

At Upper Left—Mr. Lawson gives instructions for playing the French horn. Upper right—a student finds a relaxing way to play his instrument. Lower right, a music appreciation student finds this album interesting.

Top—a piano stands waiting for a player. Left—Mr. Cuttino gives Mary Anne Williams pointers.

Art is a mode for individual expression

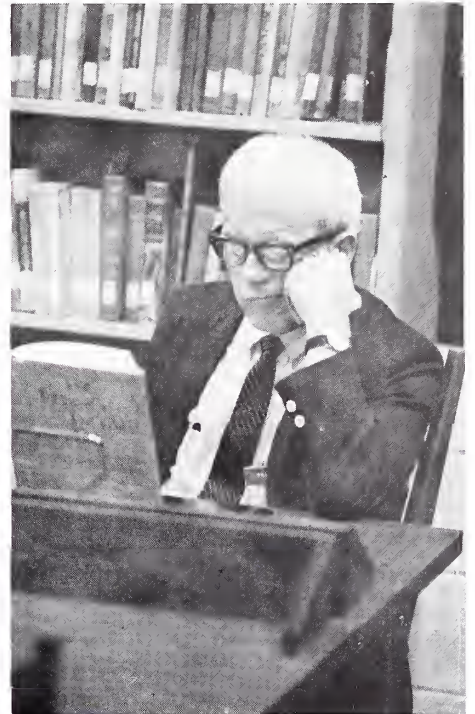

Whether it is the art professor or one of his students, Baptist College individuals express themselves through the various modes of art.

Speech develops communicative skills

Speech involves not only the communication through speeches but also dramatic presentations as shown by these students who are studying and performing.

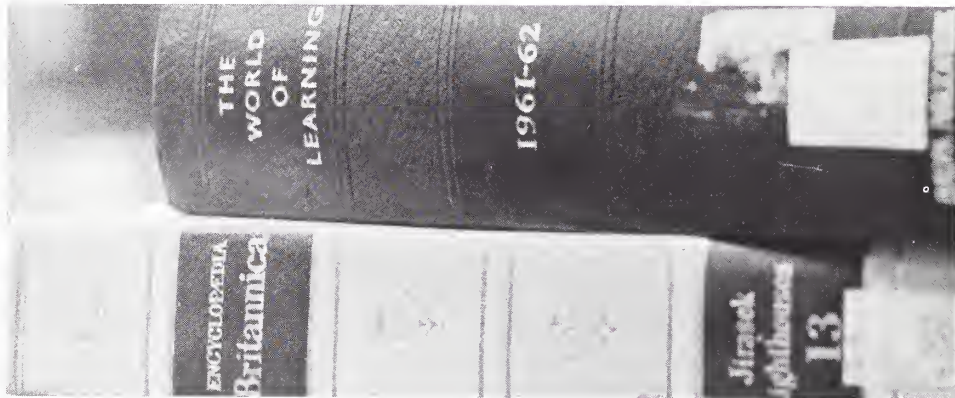

Philosophy develops the power of reasoning

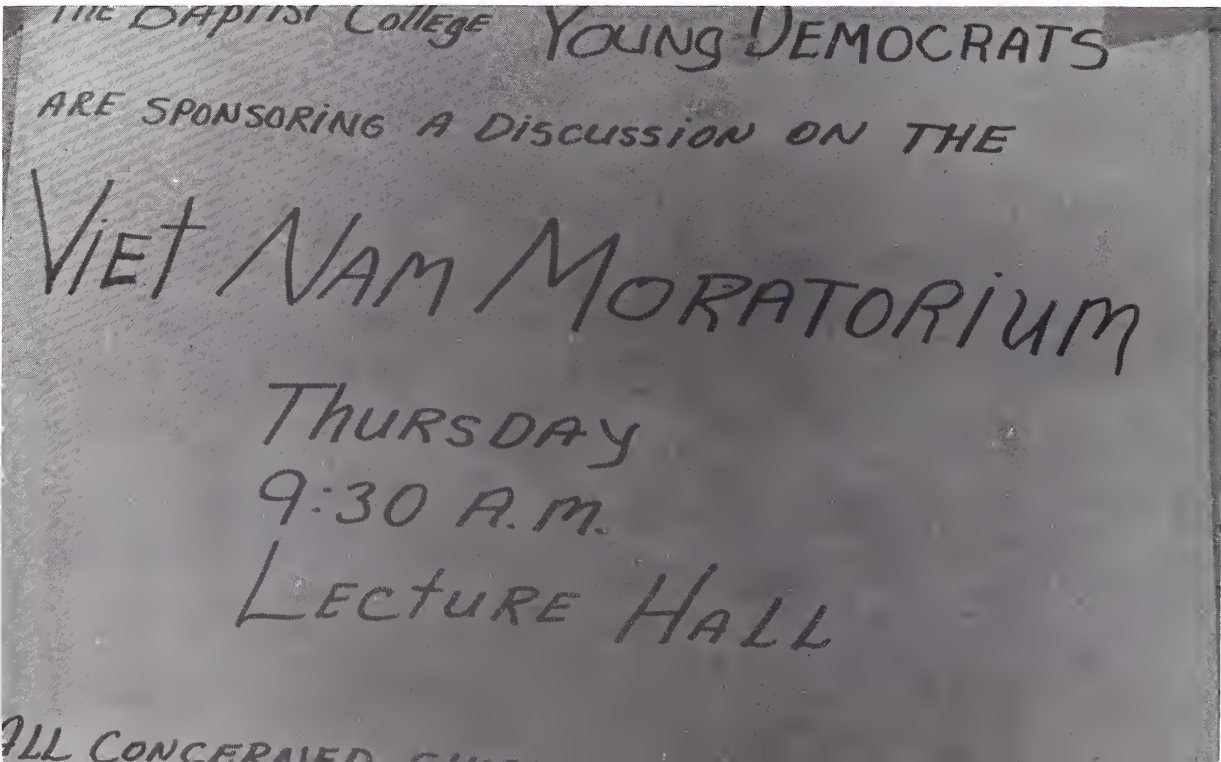

Philosophy takes hours of study.

Books—recorded knowledge.

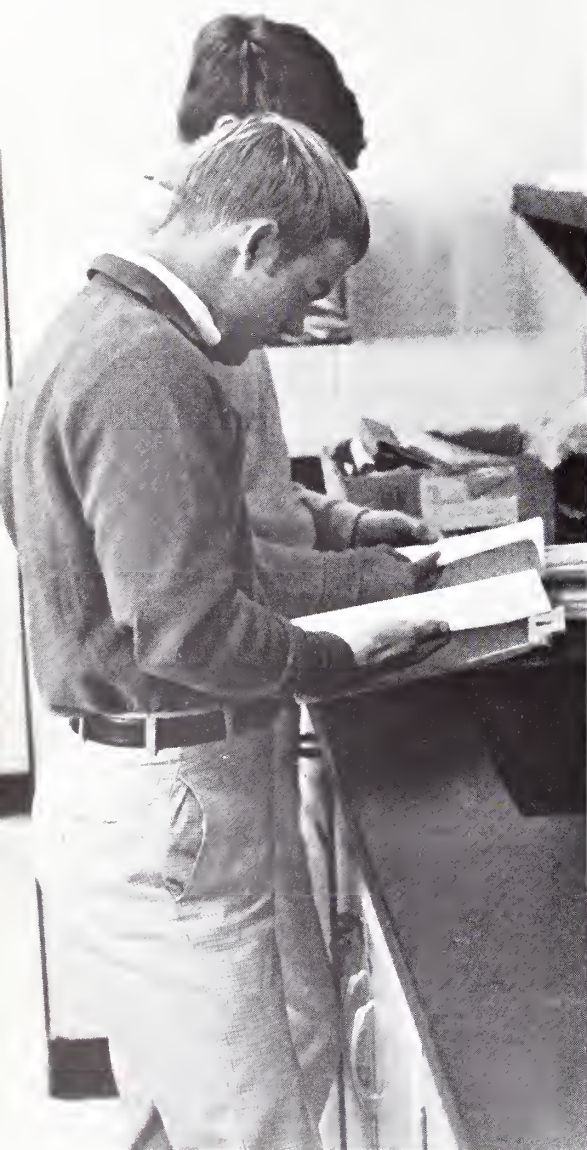

Current philosophical trends may not always be accepted but still must be expressed.

Religion class is over for the day, but the knowledge given will give insight into the future of many.

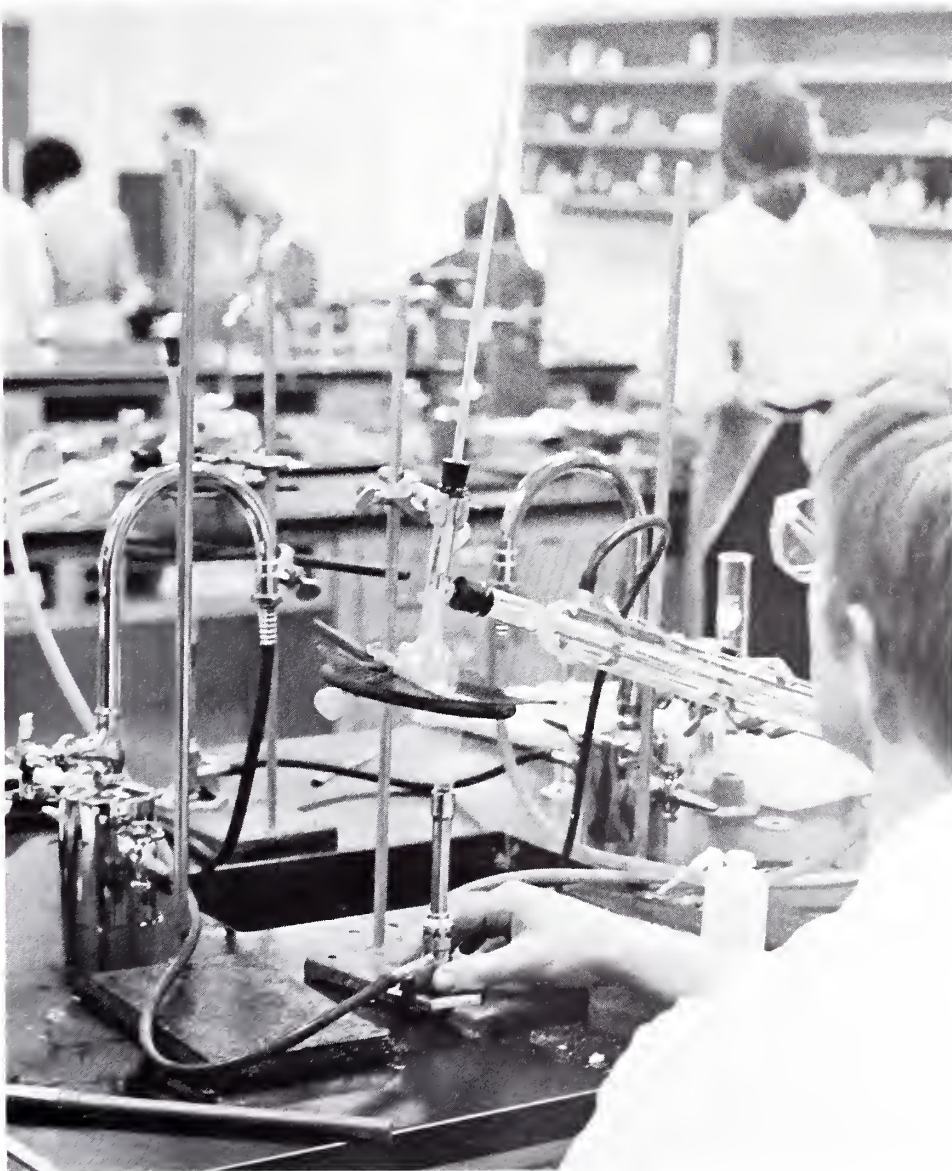

**Applications . . . the teachings of
Christian religion**

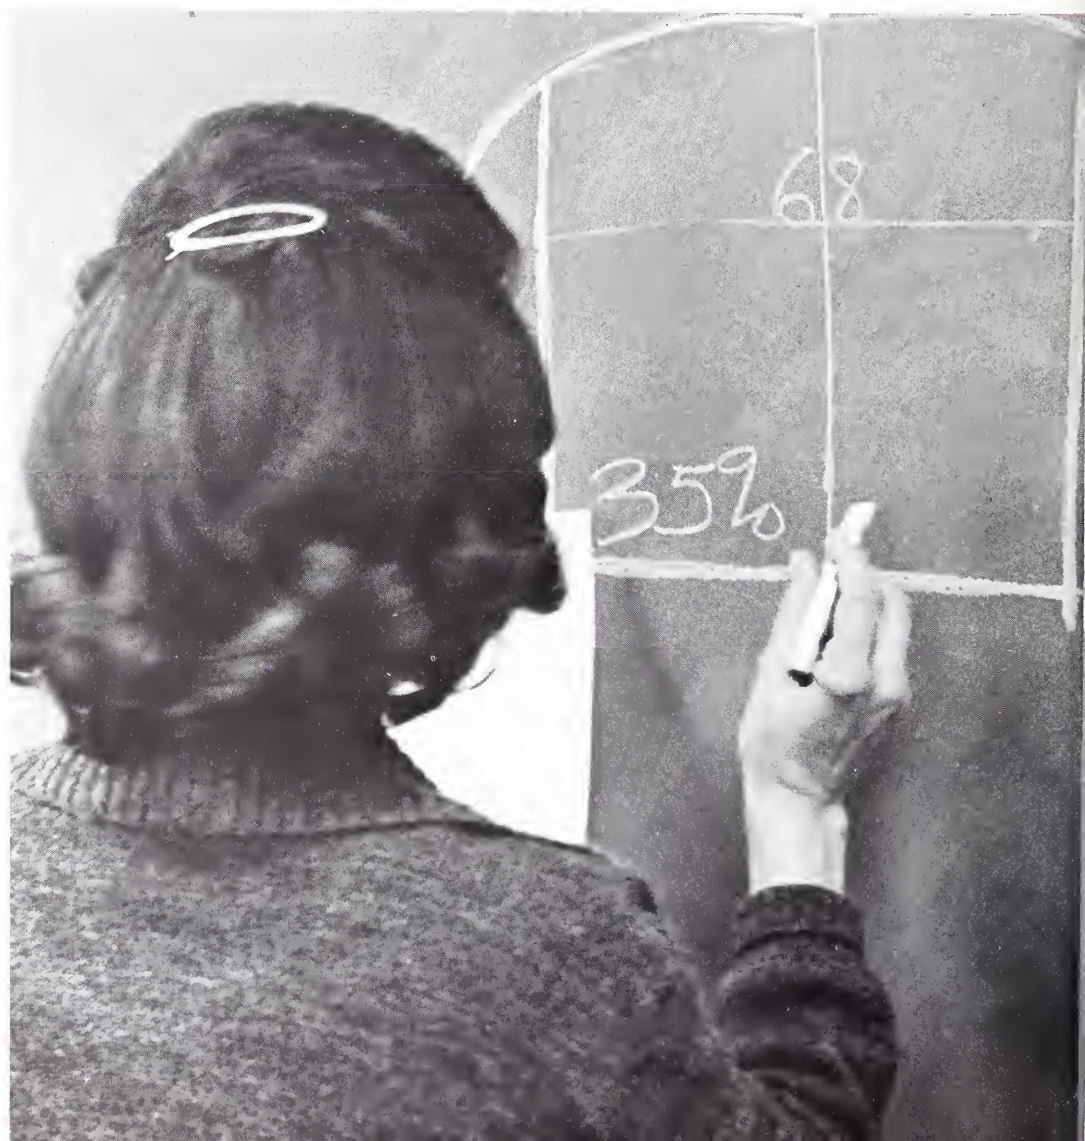

Biology . . the living world

Chemistry . . the physical world

On the right Milton Harris does a chemistry experiment. Above Lynn Reese puzzles over her work. To the left Tom Spitz and Eddie Bailey check on their test grades. Mike Deese and Butch Manuel check on the autoclave. In the above left, Dr. Chestnutt helps the students.

Formulas and equations—basics in math

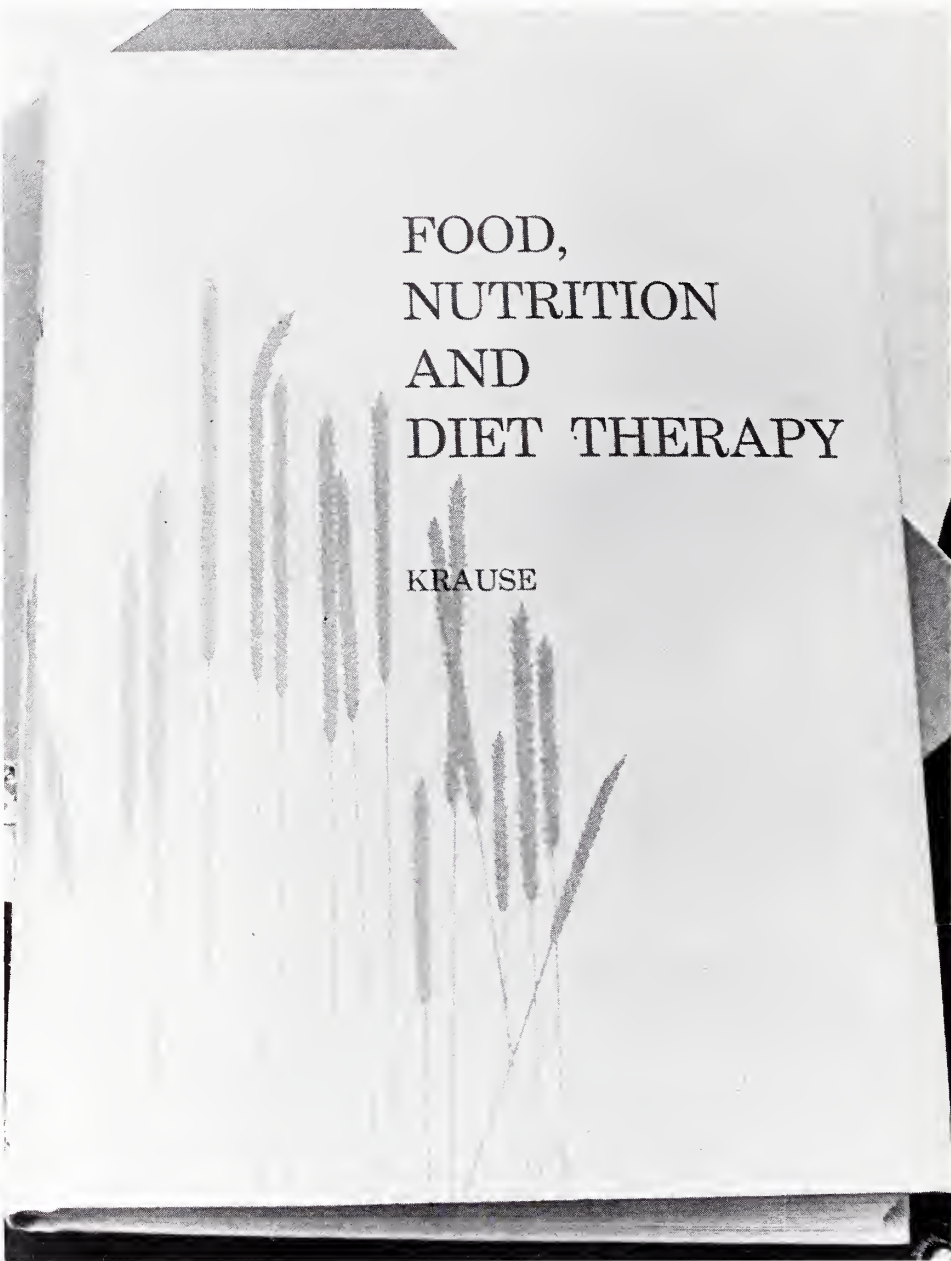

In the above left students are studying math for the elementary school. Below that a student is working on a problem. On the right a lonely boy just sits and listens.

Nursing program continues to grow

This book is used from the first year in nursing throughout the entire course.

A first year student nurse reads her assignment.

This student is able to read her chemistry upside down while listening to a lecture.

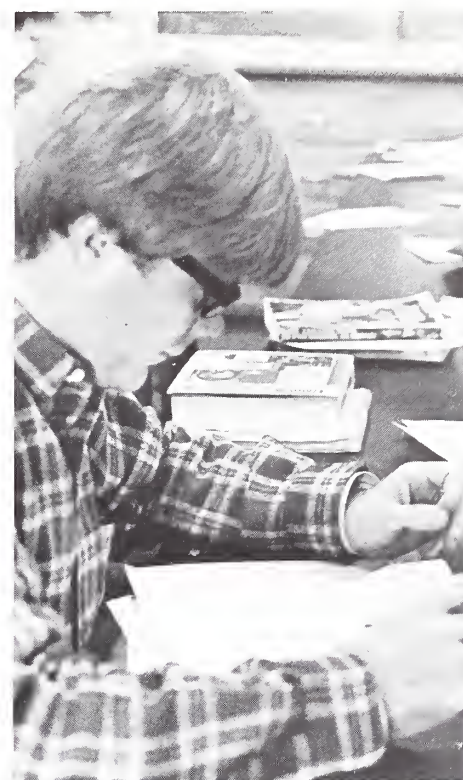

Psychology—behavioral science

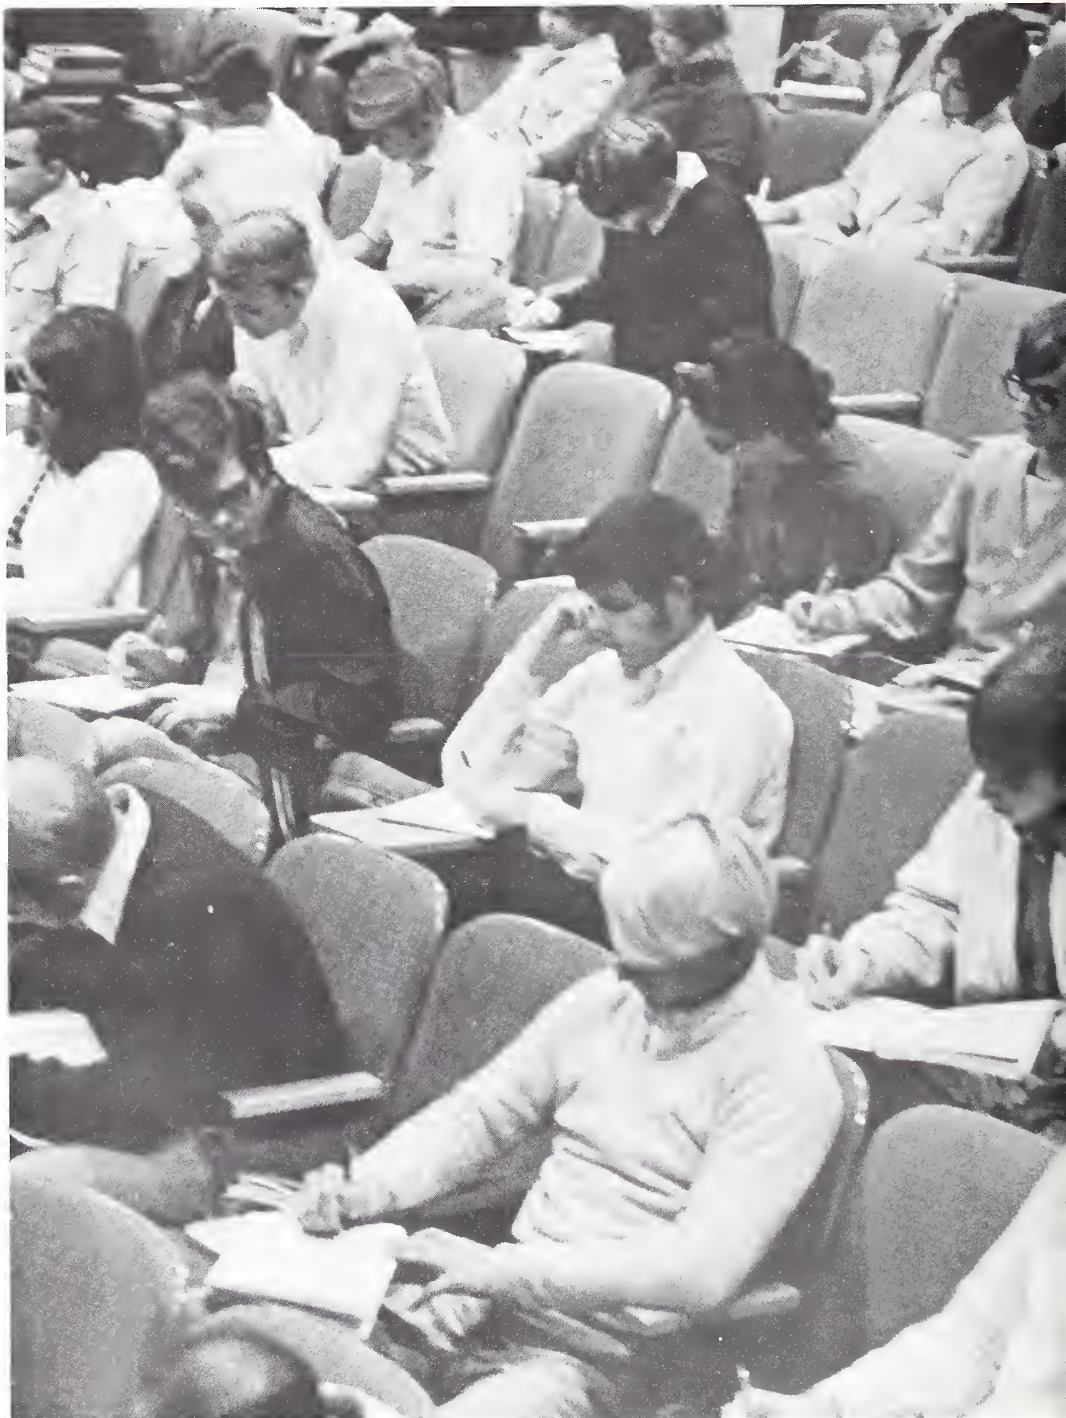

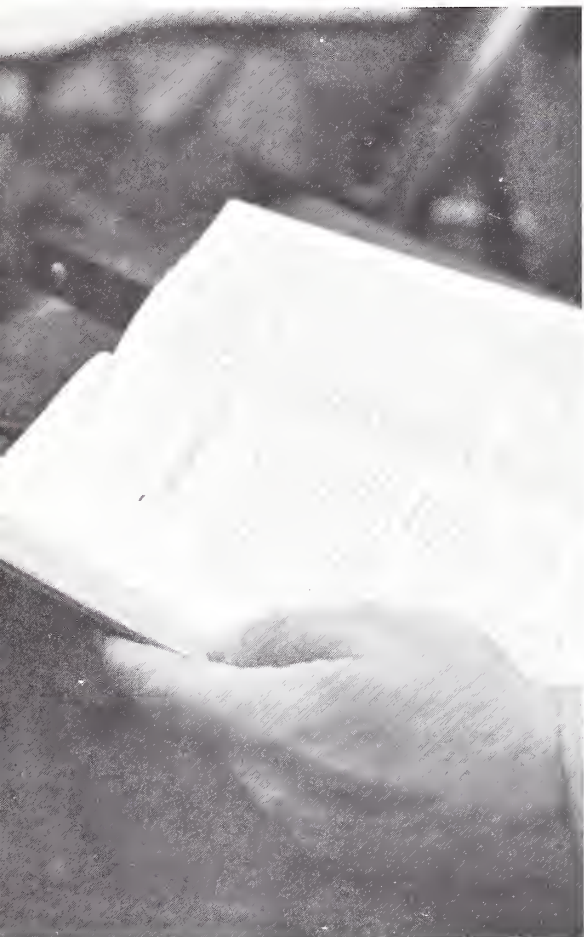

A psychology test is never easy.

Mrs. Barry helps her students.

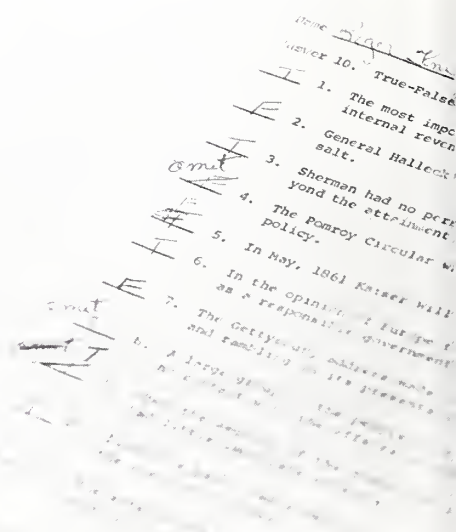

Stoney Anderson seems to be having trouble.

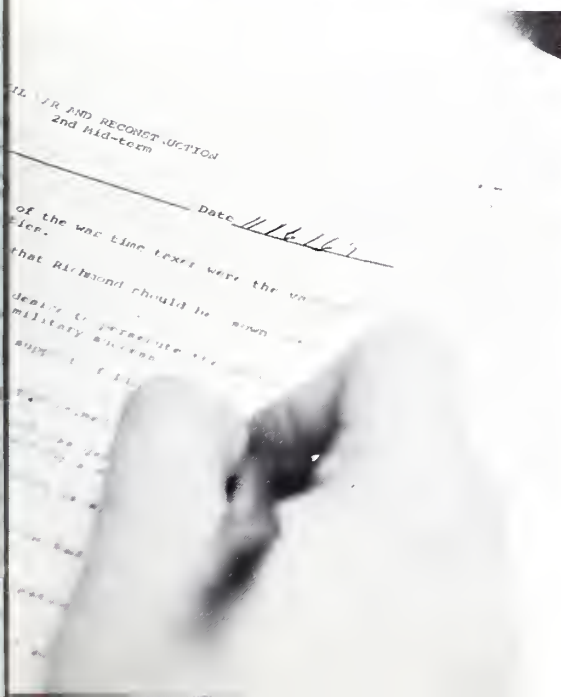

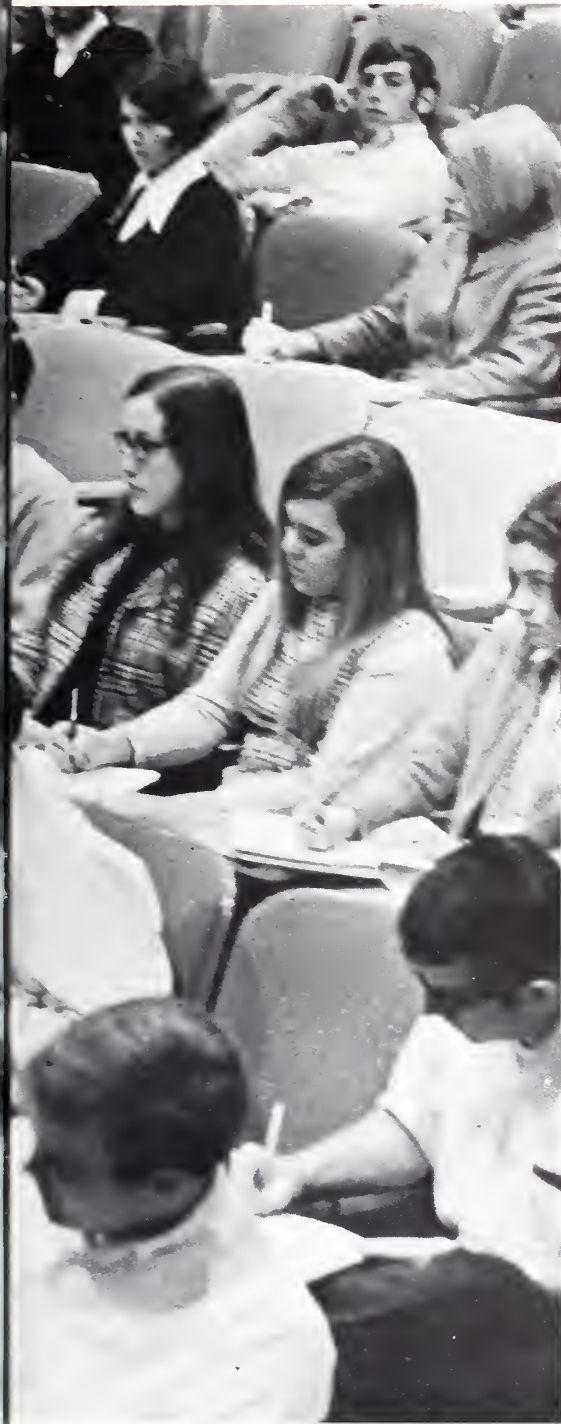

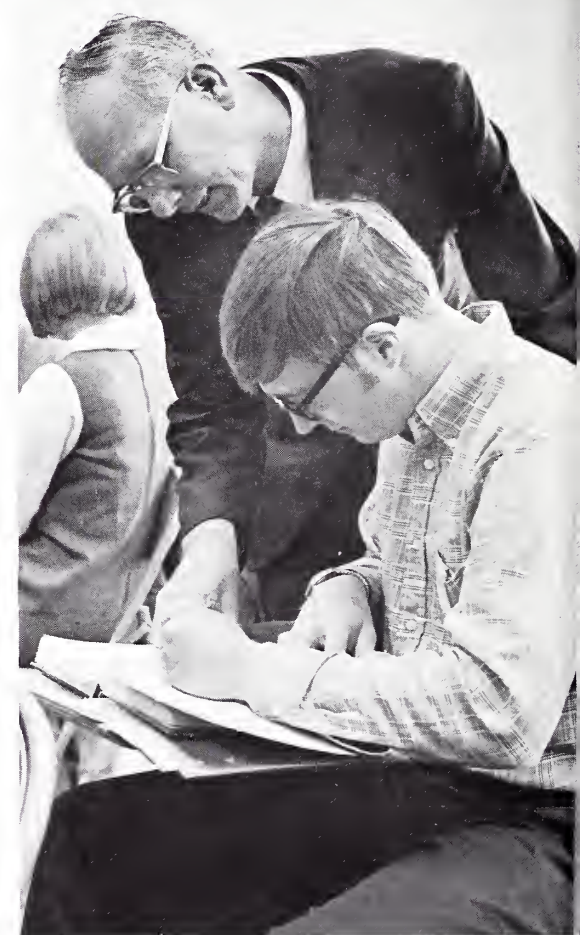

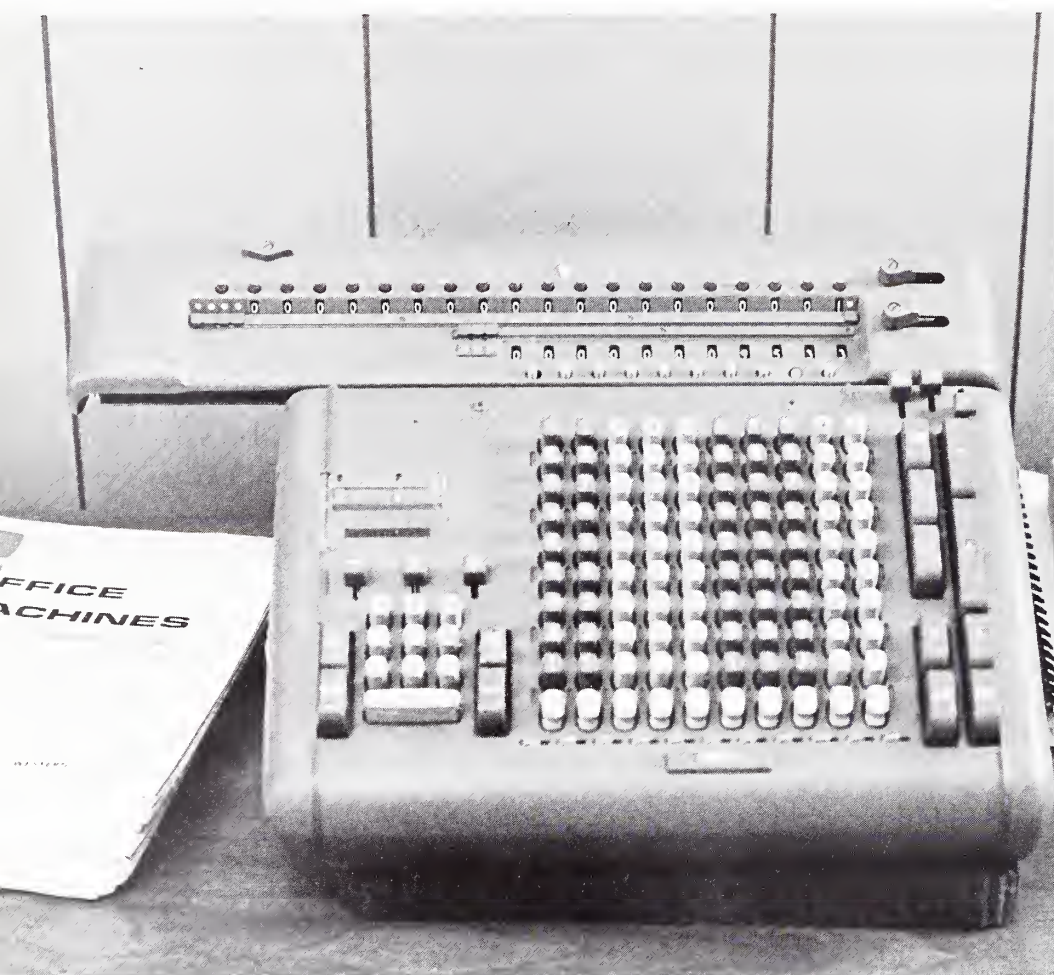

In the above picture Mrs. Gooding's students listen eagerly to her history lecture. At the left a student prepares for today's assignment during class. Below: Roger Knight plays the "guessing game" while taking his mid-term exam. In the upper right picture Dr. Reitzer talks with students outside of class. In the lower left one of Dr. Levett's friends is learning how to use the library system.

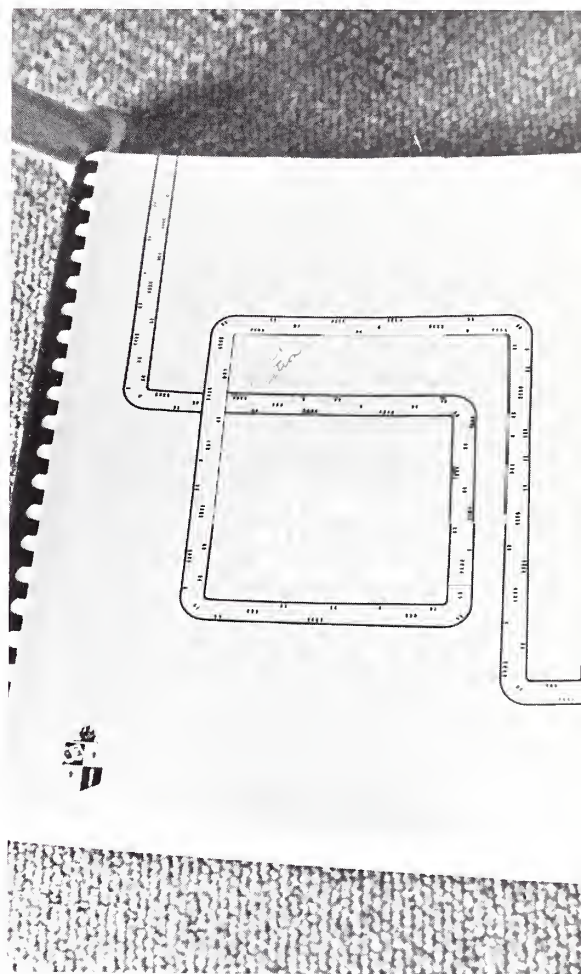

History—recorded stages of life

Business and Economics . . . preparation for industry

Students are listening to a lecture in the top picture. To the left is one of the many machines used in business. In the bottom left Mr. Perkins assists one of his students. Susy Priester is the only girl in one of her business classes in the bottom right. To the far right is one of the books used in Data Processing.

Physical Education correlates the mind and body

Kathy Williams improves her golf game through practice.
Some boys try their skill at performing a pyramid.

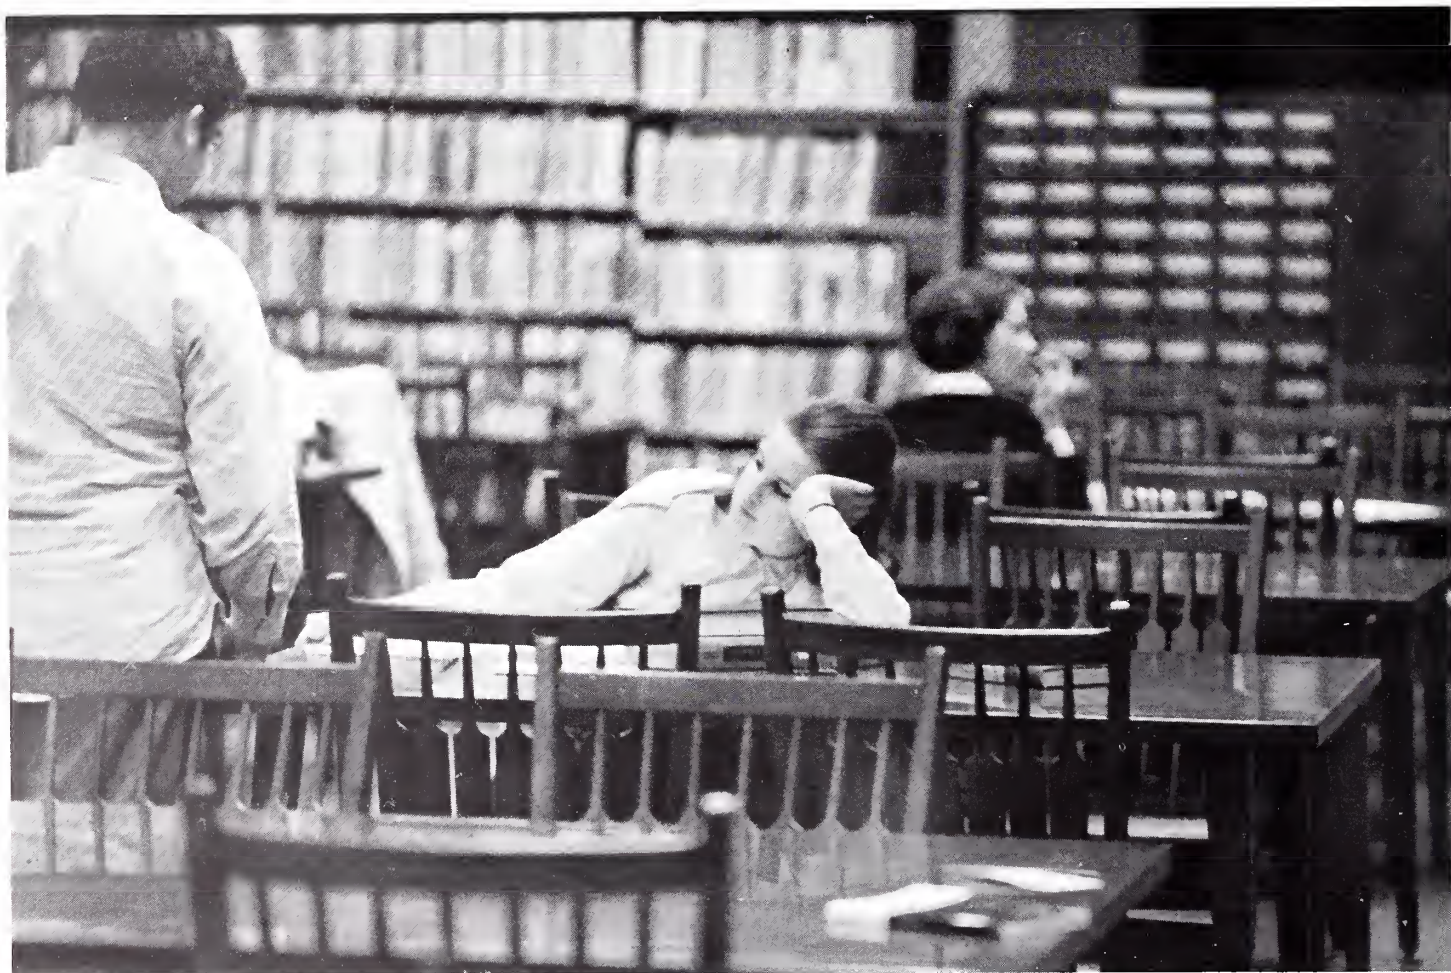

Students test their physical fitness.

Speed is the important factor in rope climbing.

First aid supplies are stored in case of injuries.

Library—haven for many

To the far left a girl looks for the right book, while beside her a boy unpacks a carton of books. Below them, Naomi Coker keeps on studying. Sitting on the stool, Carl Smith looks up a book. To the right, a girl twirls her hair while studying. Below, Ronelle and Jim seem to have taken a break from their studies.

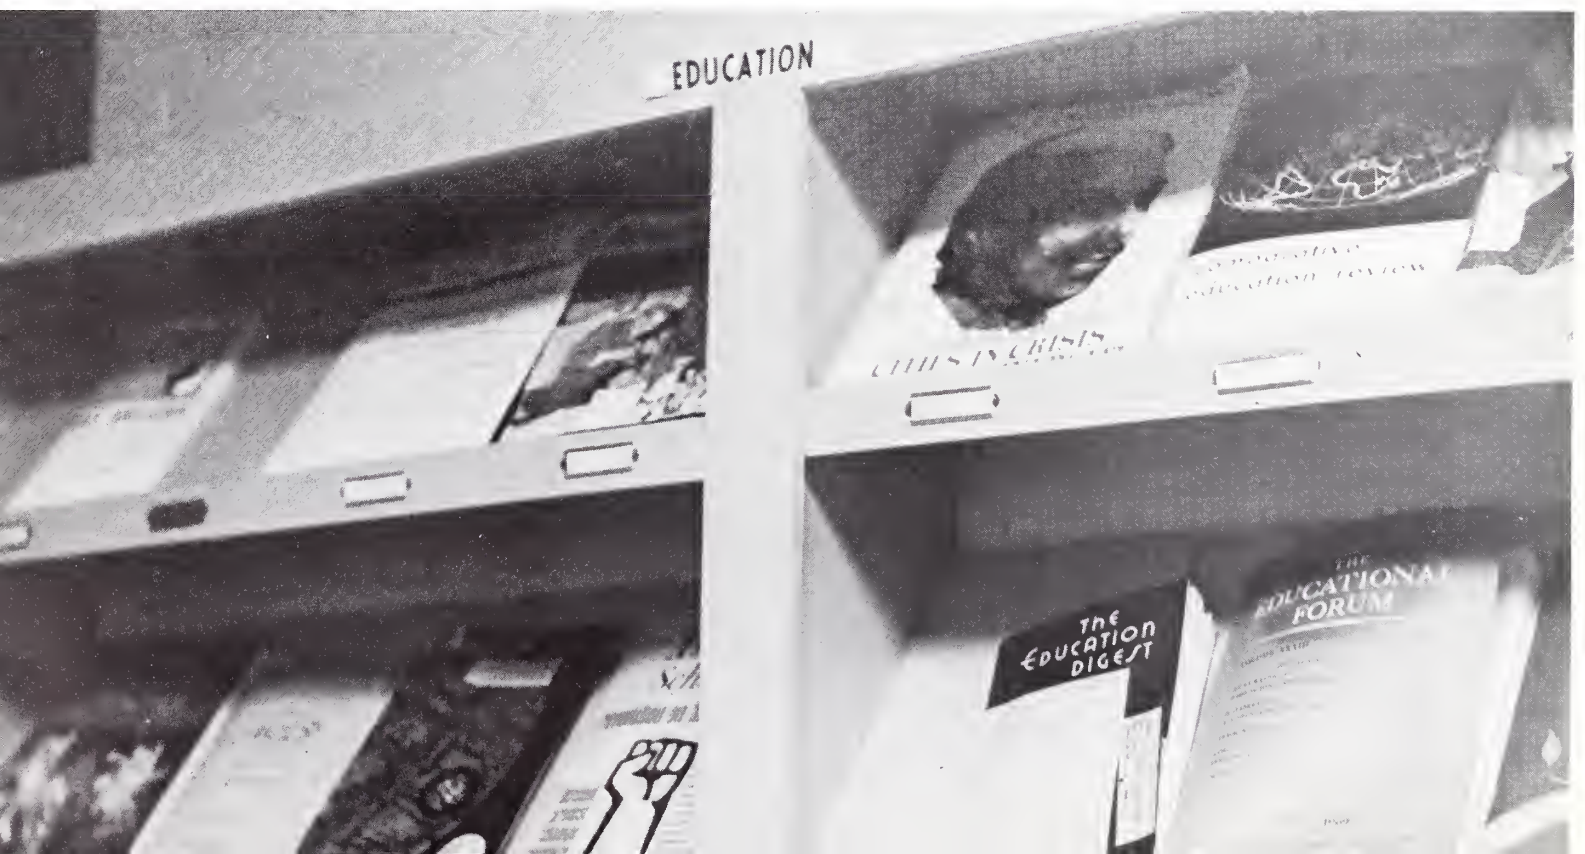

Education department trains tomorrow's teacher

Cheryl Heath signs up for appointment with Miss Austin.

Periodicals for outside study are found in the library.

WE'RE LOOKING FOR IMAGINEERS — CAN YOU QUALIFY?

According to the dictionary, there is no such word as "Imagineer" but at S.C.E.&G. it's a different story; Imagineers are the backbone of our company. We define "imagineer" as a creative engineer with an eye on the future. One who is an innovator. One who is adaptable to change, but yet practical and thorough in his evaluations. It takes more than a degree to be an imagineer . . . can you qualify? Contact our Personnel Department.

The Cutlass Staff says "Farewell"

My final words

To the Baptist College:

I would like to say thank you for helping me to publish *The 1970 Cutlass*. It has been a wonderful experience that I shall never forget, no matter how hard I could ever try. There have been moments of joy and happiness but also many of doubt and fear that this book would ever come out. My staff has really had courage to put up with me through out the year, and I say thank you especially to you all.

I'll never forget Bill Cone's famous last words "Work out" and "Do your thing", or that sentence I have heard so many times, "This is the last time I'll bother you, Harter, but could I see that picture?" There isn't much more I can say to you students except that I hope you will truly like it!!

Lianne Harter
